MERCURY FREE STATUS

DATE: 6/12/2012

ATTN: Q.C. Manager

SUBJECT: Mercury Free Certification

As part of the "Level I Nuclear" program at MetalMart, we are updating our mercury free certification database. This letter is being sent to your facility because we have an obsolete letter on file from this facility indicating compliance with mercury free requirements. We would like to update this certification, and are providing this format for ease of use. The form can be returned by fax to (562) 699-6868 or by email to qc@metal-mart.com, whichever is most convenient.

If you have any questions, please call our Quality department and they will assist you in any way they can.

Please Initial next to the mercury free statement that applies to your facility.

- All goods delivered **do not contain or have come in direct contact with** mercury, mercury compounds or with any mercury containing device employing a single boundary of containment.
- All goods delivered **do not come in direct contact with** mercury, mercury compounds or with any mercury containing device employing a single boundary of containment while in our possession.
- When specifically requested on Purchase order, goods delivered do not come in direct contact with** mercury, mercury compounds or with any mercury containing device employing a single boundary of containment while in our possession.
